

**San Diego County Permit Coordination Program**  
**Listed Species and Critical Habitat with the Potential to Occur in Program Area\***

<i>Common Name</i>	<i>Scientific Name</i>	<i>List</i>	<i>Habitat</i>	<i>Critical Habitat</i>	<i>Units in Program Area</i>
<b>Mammals:</b>					
Stephens Kangaroo Rat	<i>Dipodomys stephensi</i>	FE ST	Open, often disturbed areas, with low perennial or annual cover and large areas of bare ground; in grasslands and coastal sage scrub	None	
<b>Amphibians:</b>					
Arroyo Southwestern Toad	<i>Bufo microscaphus californicus</i>	FE	Areas along rivers, and upland areas in coastal sage scrub, grassland, oak woodland	Critical Habitat (PROP)	12,14
<b>Reptiles:</b>					
Orange-throated Wiptail Lizard	<i>Cnemidophorus hyperthyrus</i>	SSC	Open sandy areas to dense chaparral, coastal sage scrub, non-native grasses, and woodlands	N/A	
San Diego Horned Lizard	<i>Phrynosoma coronatum</i>	FSC SSC	Open, sandy areas to dense chaparral, coastal sage scrub, grasslands, woodlands, and coniferous forests	None	
<b>Birds:</b>					
California Least Tern**	<i>Sterna antillarum browni</i>	FE SE	Coastal strand, mudflats, saltflats	None	
Coastal California Gnatcatcher	<i>Polioptila californica californica</i>	FE	Coastal sage scrub, adjacent chaparral, grassland, and riparian areas	Critical Habitat	3,5
Least Bell's Vireo	<i>Vireo bellii pusillus</i>	FE SE	Riparian woodland	Critical Habitat	5,6
Light-footed Clapper Rail**	<i>Rallus longirostris levipes</i>	FE SE	Salt marsh, mudflats, tidal creeks	None	
Southwestern Willow Flycatcher	<i>Empidonax traillii eximius</i>	FE	Riparian woodland	Critical Habitat (SET ASIDE)	None
Willow Flycatcher	<i>Empidonax traillii</i>	SE	Riparian woodland	N/A	
White-tailed Kite**	<i>Elanus leucurus</i>	CFP	Grasslands, agriculture	N/A	
<b>Fish:</b>					
Tidewater Goby	<i>Encycolgubius newberryi</i>	FE	Brackish waters of coastal lagoons, tidal creeks	Critical Habitat	None
<b>Plants:</b>					
San Diego Ambrosia	<i>Ambrosia pumila</i>	FE	Coastal sage scrub, grassland	None	
Thread-leaved Brodiaea	<i>Brodiaea filifolia</i>	FT SE	Vernal pool, seeps, wet meadows, grasslands w/clay soil	None	
San Diego Button-Celery**	<i>Eryngium aristulatum</i>	FE SE	Vernal pool	None	

\*According to the California Natural Diversity Database (CNDDB), May 2003.

\*\*While these species may occur within the boundary of the Program Area, they are located on public lands or in vernal pool or coastal marsh habitat that will be completely avoided by this program.

FE = Federally-listed as endangered, FT=Federally-listed as threatened, FSC= Federal Species of Concern, SE = State-listed as Endangered, ST = State-listed as Threatened, CFP=California Fully Protected Species, SSC=State Species of Special Concern, N/A-Not Applicable
